EXPERIENCE

Freelance Designer

2023 - Present

As a Freelance UX and Web designer, I specialize in providing tailored web design and development solutions to individuals and small businesses. I leverage my expertise in Figma and Webflow to create exceptional user experiences that drive results.

UX Designer, Sheridan College VIP Innovation Accelerator

2020

Supervised and led multiple teams of designers to create a variety of projects from Websites and Apps to VR/AR. Guiding and teaching to ensure each team met their project brief and deadline.

Design Consultant, Skill Squirrel

2019

Conducted usability and user testing for a new service, created testing methodology and scenarios to get the best feedback possible, as well as delivering a final pitch with the findings and proposed improvements.
